## *Pattern*

Make two gauge squares. You can use the gauge square already made for the Hygge CAL or follow the instructions below to make two new ones.

With SW, ch20

**Row 1:** Starting in the 2<sup>nd</sup> ch from hook, sc to end, ch1, turn (19 sc)

**Rows 2-18:** 19sc, ch1, turn.

**Row 19:** 19sc, cut yarn and fasten off.

Embroider one, or both, squares following the provided embroidery pattern. Instructions for embroidery are on the next page.

Border each square by joining SW with a ss in the corner st, \*(sc, ch1, sc) in corner st, 17sc along side of square. Repeat from \* for each side. Join with ss in the first sc, fasten off.

Put the squares with the wrong sides together. Take Color D and, keeping the yarn on the bottom of your squares, insert the hook from above through the border sts of both squares. Pull up loop, insert hook from above through next st, pull up loop, pull through loop on hook (ss made). Ss in each st around. When you have finished approximately half of the sts on the fourth and final side, stuff the cushion lightly and keep stuffing as you close each st. After finishing the last stitch, cut yarn and weave in ends. Sew the little wooden snowflake charm on the bottom left of your embroidered square with color D. I unwound the cotton yarn and used one thread of it.

## *Charm Stitch Markers*

Use your pliers to pry open the silver ring. Put both the lobster clasp and the charm on the metal ring. Close it with the pliers. Simple as that!

## Embroidery

Work your embroidery on the gauge square in cross-stitch, according to the embroidery scheme. You read the scheme as follows:

Every square represents a crocheted stitch in your gauge square. The white squares will not be embroidered. The colored squares represent the cross-stitches you're going to make. In every square, there's a letter, corresponding to the color you use for the embroidery.

For details regarding how you embroider, read the Tips & Tricks document, or watch the video tutorial provided by Esther for Week 2 of the Hygge CAL.
